PROFESSIONAL SUMMARY

Web Developer based in Khuzdar, Balochistan, Pakistan, focused on building responsive, accessible web applications. Works with modern JavaScript, React, Node.js, Express, MongoDB, and REST APIs, with an emphasis on clear interfaces and maintainable code.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React.js, Responsive Web Design
Backend & APIs	Node.js, Express.js, REST APIs
Database & Tools	MongoDB, Git, GitHub

SELECTED PROJECTS

BookVerse - Online Bookstore

Frontend prototype

Responsive bookstore prototype with book listings, search, categories, and cart. Its repository describes local sample catalog data and browser storage; it has no backend or payment processing.

Royal Hostel Khuzdar - Hostel Management System

Full-stack project

Hostel management system project for student profiles, room allocation, fee tracking, staff, expenses, and reports. A public code repository is available; no live demo is listed.

SMIT AI - Educational AI Platform

Concept project

Educational platform concept for supporting student learning in mathematics, physics, chemistry, biology, and web development. Presented as a concept, not as a completed AI service.

SELECTED PROJECTS & EDUCATION

Muhammad Hanif Zehri | Web Developer

Khuzdar Travel - Travel & Booking Website

Concept project

Travel website concept for destinations, local travel information, booking options, and travel assistance in Khuzdar and Balochistan. Not presented as a deployed booking service.

Saylani Child Protection Pakistan - Awareness Website

Concept project

Awareness website concept for child-safety information, educational resources, and reporting guidance, with a secure admin dashboard concept. Not presented as an operational reporting service.

CodeInterview - Collaborative Coding Platform

Concept project

Coding platform concept for a collaborative editor, programming challenges, interview practice, and real-time collaboration. Not presented as a completed live platform.
