KEY PROJECTS

MERN Book Inventory & Database Management System

- Full-stack web application featuring complete CRUD operations, REST API, and MongoDB storage.
- Built responsive user interface with React.js and dynamic state management.

3D Interactive Personal Web Portfolio

- Developed high-performance web portfolio integrating React Three Fiber and Three.js 3D models.
- Implemented responsive layouts, glassmorphic UI, OrbitControls, and animated feedback.

Responsive E-Commerce Storefront

- Built component-driven shopping platform with product filtering, cart drawer, and modern CSS3.

Task & Workflow Management REST API

- RESTful backend service built with Node.js and Express for task tracking with MongoDB integration.
